

# SAFE AND STABLE HOMES

Your gift helps us continue creating safe and stable homes for those in our community. Juanita's mobility deteriorated over the years, making her beloved home an obstacle course. Living in a house over 60 years old, her bathroom was especially hazardous. It featured an old clawfoot tub and a small makeshift shower, rendering it nearly impossible for her to use. The small bathroom could not accommodate her needs, and each day became a struggle against the limitations of her environment.

Recognizing the urgent need for a safer living space, United Way Community Partner Rebuilding Hope embarked on a mission to transform Juanita's bathroom. The team enlarged the bathroom to accommodate a handicapped-accessible shower. The old plumbing, long past its prime, needed a complete overhaul, and the rotted floors required extensive repair. This was not just a renovation but a necessary intervention to restore Juanita's independence.

The project was a resounding success. Juanita's new bathroom is now a safe haven, with ample space and accessible amenities that allow her to shower without fear. The transformation improved her quality of life and restored her sense of independence. Stories like Juanita's highlight the profound impact of our work, and with your generous support, we can continue to bring safety, comfort, and stability to those in need. Your gift can help us reach more individuals like Juanita, ensuring we can help create safe and stable homes

WHEN YOU GIVE **\$1,000 a year**

**YOUR GENEROSITY PROVIDES A HANDICAP-ACCESSIBLE SHOWER TO A FAMILY IN NEED, BRINGING SAFETY, COMFORT, & STABILITY TO THOSE WHO NEED IT MOST.**

Thanks to your gift to United Way last year:

**20,098** individuals received food, clothing, furniture, prescription medication, & direct rent/utility assistance.

**152** individuals provided with repairs or improvements keeping them safe in their homes.
